

Project Design Phase-I
Proposed Solution
Template

Date	24 September 2022
Team ID	PNT2022TMID49573
Project Name	Project – Skill and Job Recommender Application
Maximum Marks	2 Marks

Proposed Solution Template:

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Finding a job in today's market is a major challenge .A common way to look for a job is to use job search websites .Rather than taking the time to search newspapers, company websites and other traditional job postings. A job search website can do it all with the click of a button. A job search engine facilitates the matching and communication of job opportunities between job seekers and employers
2.	Idea / Solution description	This application makes your life easier by helping you to find your job based on your skills.
3.	Novelty / Uniqueness	The user gets notified when they fit for a suitable job
4.	Social Impact / Customer Satisfaction	It will help the people to find their job and also alerts when they find their suitable job
5.	Business Model	We can collaborate with government and it can utilize the app to help the people who are in need of job
6.	Scalability of the Solution	This application has a capacity to handle large number of users at a same time.
