OUTPUT:

The screenshot shows the IBM Watson Assistant console interface. The left sidebar contains navigation options: Actions, Variables, and Saved responses. The main area displays a table of actions. The table has columns for Name, Last edited, Examples Count, and Status. One action is listed: 'I want to transfer money', which was last edited 5 hours ago and has 5 examples. The status is 'Active' (indicated by a green checkmark). A 'New action' button is visible in the top right corner of the table. The bottom of the console shows a Windows taskbar with the search bar and system tray.

Name	Last edited	Examples Count	Status
I want to transfer money	5 hours ago	5	Active

The screenshot shows a web browser window displaying a simple HTML page. The page has a blue gradient background. The text on the page is as follows:
