

## **LITERATURE SURVEY**

### **Monster:**

Monster is one of the best platform for job searching around the world and it provide a very easy and user friendly interface which makes it very convenient for anyone to search and apply for IT jobs and non IT .Also, when I receive job information ,sometimes the location is so far away from the area that I am interested in or even in other state . It also Provide to connect LinkedIn profile.

### **Advantages:**

- Navigation on the site is simple
- Monster will match you with any job that skill given on your resume
- Job searches can be easily filtered by skills ,company,
- Candidates can upload their resume for a free assessment
- Job seekers can set up job alert emails to be notified when new relevant jobs post are added
- Good for promoting freelance ,contract and part-time work
- Ability to connect LinkedIn profile

### **Disadvantages:**

- Monster never allows to delete our profile
- No free job posting
- No salary or Experience level search filters
